A STUDY OF ASTROLOGICAL BIBLE INTERPRETATION

part of a 368-degree 6-minute circle and not a part of a 360-degree circle.

We find in the Book of Ezra, Chapter 2, verse 2 up, the people who joined in the first expedition under Zerubbabel (Jupiter), the number of the people of Israel (which is again Jupiter!) verse 2 tells us that Zerubbabel came with 10 other leaders which are called by name, making a total of 11. We therefore use only the first 11 tribes enumerated thereafter. Verse 3 to 13 gives us their names and number:

Children of Parosh	2172
(note astronomer's value of 21760!!!)	
Children of Shphatiah	372
Children of Arah	775
Children of Pahathmoab	2812
Children of Elam	1254
Children of Zattu	945
Children of Zaccai	760
Children of Bani	642
Children of Bebai	623
Children of Azgad	1222
Children of Adonikam	<u>666</u>
Grand Total	12243

Tribe of Reuben	46500
Tribe of Simeon	59300
Tribe of Gad	45650
Tribe of Ephraim	40500
Tribe of Manasse	32200
Tribe of Benjamin	35400
Tribe of Dan	62700
Tribe of Asser	41500
Tribe of Naphthali	53400

Total 603750 or 603-degrees 75-minutes.

Chapter 2, 32 tell us there were 603550.

We wonder now what this value of 601-deg. 73-min & 603-deg. 75-min. respective means. We know from astronomy that the lunar apogee circulates in 3232.57 days. The moon's node has a rate of retreat each day of 3-minutes 10-seconds and is carried around the entire zodiac in 18.6 years.

When we divide our 601730 by 3232.57 we obtain 18.615 years which may indicate that these parts of the Bible have to do with the moons motion, or with astronomical laws. The stories, however, that follow and proceed have to do with effects of the planets. They all denote astrological cycles and even though universities or governments do not recognize a science that is based on the greatest book in existence, the revolutionary action of Neptune at this period may bring about

Shem, Ham & Japhet are born at 23°33'13" ♁ when Noah is 500 years old, Genesis 5 verse 32. Note: that the Bible does not let us know the birth or death of the women. Therefore, these persons do not represent cycles.

Genesis 8 **The Great Flood** verse 11 "In the six hundredth year of Noah's life, in the second month, on the seventeenth day of the month: it was on that day that All the fountains of the great abyss* burst forth, and the floodgates of the sky were opened". This would be at 5°26'8" ♍ and Virgo is an earth sign so this makes sense since God is going to flood the earth. The heavy rain fell for 40 days and 40 nights, which

Verse 28 says “Jacob lived in the land of Egypt for 17 years (47°04’37”); the span of his life came to 147 years, which is 407°04’37”. This places Jacob/Israel’s death at 24°36’50” Υ . If you add the total number of family members that went to Egypt with Jacob (“seventy persons in all”, which is 193°50’46” GE:46:27) to his location at Beer-sheba 10°46’04” Ω , you also get 24°36’50” Υ ! Chapter 48 sounds very similar to chapter 27 when Jacob tricks Isaac into giving him Esau’s blessing. The only difference is that in chapter 48 Jacob/Israel intentionally blesses the younger son and makes the same statement that the younger brother shall surpass the older.

Chapter 49 **Jacob’s Testament** is a description of Jacob’s (Jupiter’s) 12 sons. My belief is that this is a description of Jupiter’s nature or personality in each of the 12 signs of the zodiac. Because Simeon and Levi are mentioned together, under a single description, we will have only 11 signs. Remember, that the ancients considered Libra-Scorpio (The great Eagle) as a single sign. This fact is also referenced in Ge:37:9 when Joseph said: “I had another dream, this time, the sun and the moon and the **eleven stars** were bowing down to me”. Chapter 49 would translate as follows: **Jupiter in:**

- (1) Gemini “You Reuben, my first-born, my strength and the first fruit of my manhood, excelling in rank and excelling in power! Unruly as water, you shall
