PUBLISHER'S PREFACE

This collection contains Solastro's final and most advanced work on horse racing prediction, which he says surpasses all of his other prior work. What is interesting about this final advanced system is that, though it is the most advanced, it is the easiest to apply and practice because it does not even require any astrology or advanced number theory. And yet, it provides the best results of any of his systems.

This Master System is called "*The Final Chapter*" to the *Law of Cycles*, and it presents a totally different approach to horse racing prediction related to sounds and phonetics which supersedes all other systems producing better results with even less work. Of course, one can still apply all the prior systems in layers to make one's determinations, adding in numerology and astrology to make a more complex and accurate prediction. But those desiring the cleanest and easiest approach will find this system very much to their liking.

This volume, *Solastro's Master Horse Racing System*, contains this most advanced work, and also includes a final work he released at the end of his life called *Jottings from My Notebooks*, another of his rarest "For Private Circulation Only" works that provides some final deep insights and adjustments selected from Solastro's 12 volumes of research notebooks, making his various systems even more efficient. We have also included a selection of Solastro's Letters, to give a bit more insight into the private man himself.

Lastly, to increase the content value of the set, we have included six extremely rare Sepharial manuscripts which represent Sepharial's most advanced systems for predicting horse races. These manuscripts were part of Solastro's private collection and we have determined the authenticity of these documents from Solastro's listing them for sale as part of a collection of original manuscripts in his possession. The document showing the provenance is included.

This is the only known original set of Sepharial's racing manuscripts to have survived the 100 years since they were originally written. Sepharial's advanced systems were the first teaching and inspirations upon which Solastro built his own systems over the next half

century. Altogether, this collection along with Solastro's Master System provides the most advanced insight into the prediction of horse racing ever published.

One request that Solastro made of all of his clients was that they donated 10% of all their winnings to charity. We strongly suggest that the reader continue follow this very important rule, which is closely connected to achieving long term success. This principle has to do with important Karmic elements which will best assure continued success in these endeavors if followed respectfully.

For those who would like to expand their research and experimentation to a wider range of applications, see our other Solastro collections on lottery prediction or 2-team sports betting. His Advanced Master Lottery System was his most expensive and therefore most highly valued of all of his work, so any serious researcher would want to explore that system to see what his highest work was all about.
