PUBLISHER'S PREFACE

Aside from Solastro's most detailed work on Horse Racing and forecasting 2-player games, Solastro also focused considerable attention upon Lottery prediction. Some of his most advanced and important systems were designed for the prediction of the exact kind of 2-6 number lottery systems still used today.

Solastro was famous for having won 4 different lotteries back in the 1970's and 80's, each over \$30,000, and was just a hair's breadth away from winning the grand price in one of them. A friend of the Institute, who communicated with Solastro over 30 years, was given copies of the deposited checks for verification of these wins.

Many other of the most famous racing, lottery and betting forecasters similarly wrote their primary works on Horse Racing, and only very few on Lottery Prediction. In fact, the only other person we know of who is famous for forecasting and winning lotteries is W. D. Gann, the famous financial market analyst and forecaster. There are places in his Ephemeris where you can see his hand-written notations saying, "won lottery." Lambert Gann, the current holder of the Gann collection has a number of large notebooks full of Gann's lottery work, including many 100's of pages of detail calculations.

However, the lottery that Gann played back in his day, in the 1950's and before is not the same as the lottery that we have today. In Gann's day, one would purchase a ticket off a roll with the number printed on it, so one could not choose the number like one would today. Generally, these were 4-digit numbers on those tickets, so Gann's lottery world would have more to do with finding the correct time to purchase the ticket. This is not so with our current lottery system where the player either selects the numbers himself, or has the computer generate a random series of numbers for him.

So, again, history has left us with almost no resources or references by the great masters of astrology, numerology and prognostication on lottery forecasting. Many, like Sepharial or Butaney, wrote about Horse Racing and financial forecasting, but to our knowledge, nothing exists by these greats on lottery prediction, making these rare Solastro manuscripts an almost one-of-a-kind resource for this unexplored field.

This collection contains 3 of the 4 most fundamental lottery systems Solastro produced, the one missing being *The Christmas Supplement to the Pyramid System*, a slight extension of the included *The Pyramid System*, which we have as yet been unable to acquire. The principles applied in *The Pyramid System* are the same as those adopted in Solastro's earlier book *The Law of Cycles*, a copy of which is included in this collection for reference and further study. *The Sextile System* is a further extension of *The Pyramid System* taking this approach to its maximum function.

Lastly is included *The 3-Point System For The 2 To 6 Number Game*, which is an astrological system adding a secondary method for attaining the prediction results. For those who are not already familiar with the astrological and numerological systems of forecasting, these lottery instructions may seem a bit somewhat brief.

Therefore, we have also included a series of Solastro's other works, mostly on horse racing and astrology, which will help to provide the foundational knowledge of astrology and numerology, sound and vibration, which can similarly be applied to forecasting the lottery. We have also included a final manuscript applied to forecasting your own personal life cycles, which should be of interest to all. So, the complete collection here will provide solid foundations for anyone to study each element of these systems of forecasting.

For those who master these systems and seek something even more powerful, there is one final Advanced Lottery System that Solastro produced at the very end of his life. He felt this system developed his studies to the highest level possible, beyond what can be accomplished with the pieces in this volume. This system, initially called *The Seven Keys to Lotto Success*, but later renamed, *My Winning Strategy for Lotto*, was made available in only 12 copies to his very closest clients at the price of \$2,000 each, back in 1993, which would be equivalent to almost \$4000 in today's dollars.

We are fortunate to have preserved this rare system, and we do offer it for sale to owners of this collection. We have included Solastro's own advertisement for his Advanced System at the end of the lottery collection in this volume, to illustrate how exclusive that system really was. Included with the Advanced System is a collection of hand-written letters between Solastro and a client discussing topics related to Solastro's work.

One final request that Solastro made of all of his clients was that they donated 10% of all their winnings to charity. We strongly suggest that the reader continue follow this very important rule, which is closely connected to achieving long term success. This principle has to do with important Karmic elements which will best assure continued success in these endeavors if followed respectfully.

For those who master these lottery studies and feel inclined to explore similar methods of forecasting events like Horse Racing or 2-team or 2-player games, like Football or Tennis, we suggest you explore our other Solastro collections, as we have other excellent collections in each of those fields. Go to www.sacredscience.com for more information on Solastro's, and for the largest collection of works on astrology, numerology, racing, betting, lottery and financial market forecasting. We have many more works on these subjects by the greatest authors in the field.
